Levi Skye Morris

Engineering Leader & Former CTO
Boulder, Colorado | levi@leviskye.com | github.com/siromivel | leviskye.com | +1-734-730-7169

EXPERIENCE

Morris Mitigation Services | Founder | Boulder County, CO | Feb 2026 – Present
- Building WUIXpose, an open-source Kotlin/PostGIS/MapLibre platform that maps home ignition zones around structures from state and county parcel data and records field assessments.
- Built a field assessment-to-report data pipeline for property insurance appeals using Python and self-hosted LLMs with constrained, low-temperature generation and PII redaction.

Omni Cloud Technologies | Chief Technology Officer | Remote | Jul 2020 – Apr 2026
Omni Cloud Technologies | Senior Software Engineer | Remote | Apr 2019 – Jul 2020
- Led up to 20 engineers across five countries and three teams as a player-coach, owning hiring, performance management and delivery workflows.
- Architected and led the buildout of multiple products, including a creator-focused crypto and fiat payments platform in NestJS and React/Next.js over PostgreSQL on GKE.
- Maintained 99.9% uptime through the loss of banking partners; led security and incident response.
- Secured digital asset custody, wallet seeds/signing keys and user PII against threat actors.
- Built Python/BigQuery pipelines ingesting Ethereum L1 and L2 data for business analytics.
- Served as primary product manager across design, legal and marketing, balancing business risk, compliance and features.

CampSpot | Senior Software Engineer | Denver, CO | Sep 2017 – Feb 2019
- Led a three-person payments team building a PCI DSS Level 1 gateway in Kotlin/Dropwizard/PostgreSQL.

DocNetwork / CampDoc | Tech Lead | Ann Arbor, MI | Aug 2015 – Jun 2017
- Led a 3–5 person team on a HIPAA/FERPA EHR platform; scaled databases and infrastructure as the user base grew to 1,000+ camps, schools and community centers.

SearchSpring | Integration Specialist | Colorado Springs, CO | Nov 2014 – Aug 2015
- Built e-commerce search integrations: Elasticsearch catalog pipelines and storefront frontends.

SKILLS

- **Languages:** Kotlin, Java, Clojure, TypeScript, JavaScript, Python, SQL, Solidity, Vyper, Go, HTML/CSS
- **Data & Infra:** PostgreSQL, MySQL, PostGIS, Redis, MongoDB, BigQuery, Elasticsearch, AWS, GCP, Kubernetes, Docker, CloudFormation, Terraform, Prometheus, Grafana, New Relic, Datadog, PagerDuty
- **Delivery:** Git/GitHub, CI/CD (GitHub Actions), feature flags, A/B testing, agile, rolling, blue/green and canary deploys
- **Leadership:** hiring, performance management, mentoring, product ownership, roadmap planning, incident response
- **Web:** React, Vue, Angular, Next.js, Node.js, NestJS, Dropwizard, Django, REST, GraphQL
- **AI:** agentic development (Claude Code, Codex, OpenCode, Pi), frontier models (Claude, Gemini, ChatGPT), self-hosted LLMs (Qwen, Gemma, DeepSeek), model routing (LiteLLM, MLflow)
- **Compliance:** PCI DSS, HIPAA, FERPA, KYC/AML

PROJECTS

- **kindling:** open-source LLM routing and middleware layer with generated gateway configs.
- **Evo/eco modeling:** Ricker and stochastic, nonlinear population models in Clojure, Python and R.

EDUCATION

University of Michigan | BS | 2012
NSF GRFP Honorable Mention | Adaptation to High-Altitude Hypoxia in Geladas (*Theropithecus gelada*) | 2014
